S I R:

In response to the Office Action dated April 24, 2002, please
amend the above-identified application as follows:

IN THE CLAIMS:

Please amend Claim 1 as follows:

- Sub C1
1. A catheter for placing within a body, the catheter comprising:
- a flexible hollow body defining a length between a top end and a bottom end wherein the top end is closed and wherein the top end tapers to a cylindrical tube;
 - a diameter defined by the cylindrical tube;
 - a width defined by the bottom end of the flexible body wherein the width is greater than the diameter;
 - a locking mechanism located on the bottom end of the flexible body;
 - a first notch located a distance from a point at which the top end meets the cylindrical tube; and
 - a second notch located a distance from the bottom end;
 - a cylindrical body defining a cross with a length defined between a pointed end and a flat end;
 - a first part having a uniform width and a length defined between the pointed end and the flat end;
- B1
